

Cultivating Purity

We have to **COME BACK TO OUR ROOTS / ORIGINS**
for **Pure Water...** So our **PRATYAGAM WATER** will be Source of Best **Healthy Water...**

About US

PRATYAGAM: A Return to Purity

Our ancestors drank from **pristine rivers, trusting nature's purity**. Over time, we moved to filtering water and using advanced **purifiers like RO systems**, which, while removing contaminants, also strip away essential minerals. **PRATYAGAM Water** is our answer to this issue. We source and treat our water to maintain **vital minerals, offering a natural, healthy alternative**. Experience pure, life-sustaining water with **PRATYAGAM**. Return to **nature's purity** and **embrace health**.

Problem And Solution

Problem

RO WATER is dead water.

RO (reverse osmosis) water can have some drawbacks:

- **Mineral Depletion:** Removes essential minerals like calcium and magnesium, potentially leading to deficiencies.
- **Acidity:** Can be slightly more acidic, possibly affecting the body's acid-base balance.
- **Taste:** Lacks minerals, resulting in a flat taste.
- **Environmental Impact:** Produces wastewater and consumes energy.
- **Maintenance:** Requires regular filter replacements and upkeep.

Solution

- **Ionized water**, particularly hydrogen **alkaline water**, is often marketed for its potential **health benefits**. Here are some detailed benefits that proponents associate with ionized water from ionizers:
- **Antioxidant Properties:** Ionized water is believed to possess antioxidant properties due to the presence of molecular hydrogen (H_2) and negatively charged ions. Antioxidants help neutralize free radicals in the body, which can reduce oxidative stress and inflammation, potentially lowering the risk of chronic diseases.
- **Improved Hydration:** The ionization process creates smaller clusters of water molecules, which are thought to be more easily absorbed by cells. This enhanced absorption may improve hydration at the cellular level and support overall bodily functions.
- **Balanced pH Levels:** Ionized water tends to have a higher pH level, making it alkaline. Advocates suggest that consuming alkaline water can help neutralize acidity in the body, promoting a more balanced pH and potentially reducing the risk of acid-related health issues.

Six Types Of Pratyagam Water

Neutral
Water

1. Neutral Water

Neutral water helps clean without leaving harmful residues, ensuring safety and hygiene in daily life.

Beauty
Water
pH 5.5

2. Beauty Water (pH 5.5)

This Beauty water is gentle and recognized for its astringent properties, making it a natural choice for skincare and cleaning. Not suitable for drinking.

- Facial Care
- Hair Care
- Pet Care
- Polishing

Neutral
Water
pH 7.5

3. Alkaline Water Level 1 (pH 7.5)

Alkaline water Level 1 is free from impurities like chlorine, rust, and cloudiness, making it safe and tasty for consumption.

- Medication intake
- Baby food
- Cooking

Mild
Alkaline
Water
pH 8.5

4. Mild Alkaline Water (pH 8.5)

Perfect for initial hydration when starting to consume alkaline water. It supports digestion and overall health.

- Daily drinking
- Baby food
- Cooking

Alkaline
Water
pH 9.5

5. Alkaline Water (pH 9.5)

This hydrogen-rich water is ideal for drinking and cooking, promoting overall wellness by restoring your body's pH balance. It's budget-friendly and eco-friendly.

- Drinking
- Cooking
- Soup & Stews
- Plants

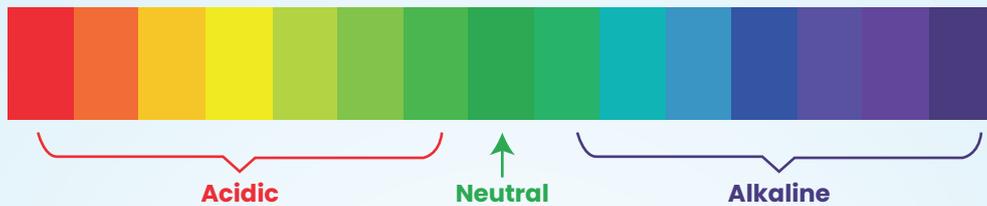

Strong
Pratyagam Water
pH 10.5

6. Strong Pratyagam Water (pH 10.5)

This water is perfect for tough cleaning tasks and maintaining hygiene. It is not suitable for drinking but is highly effective for removing grease and pesticides, ensuring a cleaner and safer environment.

- Pesticide Remover
- Degreaser
- Makeup Removal

Product Quality

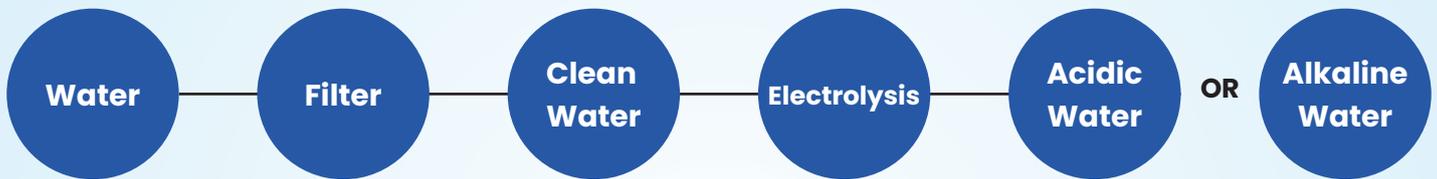

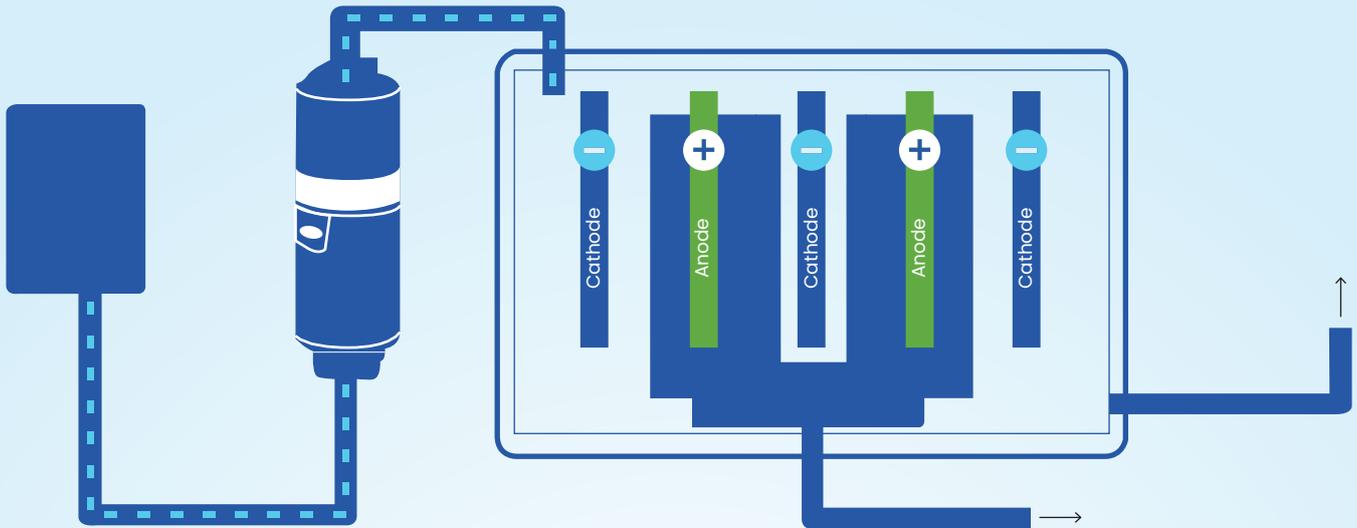

- **Build Quality:** Assess the materials used in the construction of the water ionizer. Stainless steel or high-quality plastics are preferable for durability and safety.
- **Ionization Performance:** Look for details on how effectively the ionizer can alter the pH level of water and produce both alkaline and acidic water as desired.
- **Warranty and Support:** Look for a product that offers a warranty period and good customer support, indicating the manufacturer's confidence in their product and commitment to customer satisfaction.

Benefits Of Pratyagam Water

1. Produces alkaline water
2. Better Hydration
3. Weight Loss
4. Improved Taste
5. pH Balance
6. Bone Health
7. Immune Support
8. Skin Health

The Principle Of Electrolysis

Electrolysis Plate Material	Platinum – Titanium Plate, manufactured by JAPAN
Q'ty of Electrolysis Plates	5 Plates / 7 Plates / 9 Plates / 11 Plates
Voltage	AC 100 V/AC 220V, 50/60 Hz
Power Consumption	Max. 450 W
Inlet Water Pressure	0.9~5.0 kg/cm ²
Electrolysis Method	Continuous electrolysis
Water Flow Rate	1 Ltr / minutes (7 Plates) increases with More Plates
Cleaning	10 second automatic cleansing after each alkaline water use 'manual cleansing option if Alkaline water consumption is below 30 litres
Electrolysis Levels	Neutral Level, 5.5 pH, 7.5pH, 8.5pH, 9.5pH, 10.5pH
pH Adjustment	Each electrolysis level gives 20 segments for pH adjustment(based on source water quality in different areas)
PH Value (based on source water quality)	4.5~10.5
ORP Value (based on source water quality)	above -500 mv
Warranty	1 - year

Dr. DON COLBERT

I have had countless numbers of patients with **painful osteoarthritis** on many different medications for arthritis. Many have been **pain free** within a couple of months after adjusting their urine **pH to 7.0 to 7.5** by consuming adequate amounts of alkaline water and As a result, many are able to go off of their medications.

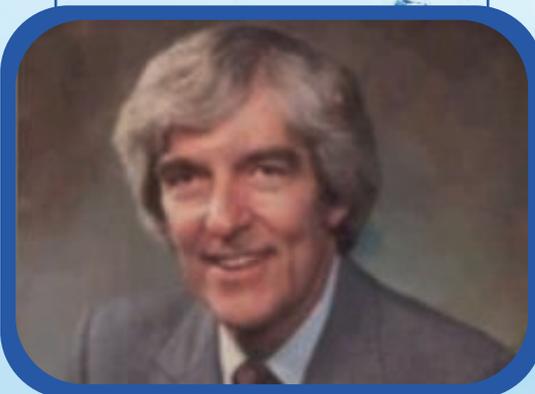

International studies show that populations with little or no history of illness, **such as cancer**, drink **higher (pH) alkaline waters**. After all potential risk factors were considered and factored out, it became evident that they had been drinking waters with a **pH of 9.0 to 10.0**

DR. LEONARD HOROWITZ

Alkaline water, produced by a **water ionizer**, has become the most important advancement in **health care since Sir Alexander Fleming's discovery of penicillin**

Dr. WILLIAM KELLY

Our body is
70% Water

Eyes

95% water

Brain 74.5% water

Blood 83% water

Liver 86% water

Kidneys 83% water

Muscles 76% water

Fat 20% water

Bones 22% water

Connective Tissue

60% water

Heart 79% water

Lungs 80% water

Skin 70% water

Joints 83% water

do you know, who you are ? Actually

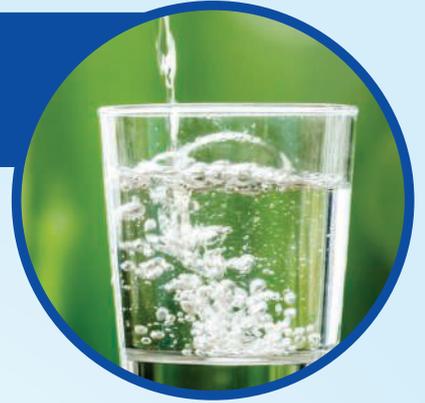

YOU ARE WATER

Healing Is Voltage, Recharge our Body With **Pratyagam Water.**

USAGE OF PRATYAGAM WATER ACCORDING TO PH LEVEL

NEUTRAL WATER

Neutral water helps clean without leaving harmful residues, ensuring safety and hygiene in daily life.

5.5 pH BEAUTY WATER

Toner & Astringent

Hair Care, Groom Pets Clean Mirrors & Glass House Cleaning
- Floor Tiles Great for Plants

7.5 pH SAFETY WATER / CLEAN WATER

Baby Formula & Medication

8.5-9.5 pH PRATYAGAM DRINKING AND COOKING... ANTI AGING

ANTI-OXIDIZING

Neutralize free radicals Contain active hydrogen ionized water gives energy Reduces effects of aging

ANTI-OXIDIZING

H2O pH level of 8.5 to 9.5 Healthy pH balance Counteracts acidic foods Promotes overall health

DETOXIFYING

Removes acid waste/toxins Helps detoxify the colon Promotes digestive health Faster circulation of H2O

HYDRATING

Superior hydration of body Micro-clustered / Hexagonal water hydrates efficiently Better nutrient absorption

10.5 pH STRONG PRATYAGAM WATER

Emulsifier

Removes Pesticides and agricultural chemicals from fruits and vegetables
Cleans greasy pots & Pans Laundry Detergent

The Power of RO and Ionization Combined

RO with Ionizer merges two powerful technologies: reverse osmosis (RO) and water ionization. RO works by filtering out harmful contaminants such as sediments, chlorine, and other impurities, while the ionizer adjusts the pH level of the purified water, making it alkaline. The result is crisp, clean, and revitalized alkaline ionized water that's perfect for drinking.

Key Features of RO + Ionizer

1 Superior Purification:

The RO system removes up to 99.9% of contaminants, including heavy metals and chemical residues, delivering pure water every time.

2 Health-Boosting Ionization:

By ionizing the RO purified water, this device increases its alkalinity, which is believed to help neutralize body acidity, potentially reducing the risk of chronic diseases.

3 Easy Installation and Maintenance:

Designed with convenience in mind, the Inbuilt RO with Ionizer is easy to install and maintain, making it a hassle-free addition to your home.

4 Eco-Friendly:

This system reduces plastic waste by minimizing the need for bottled water, contributing to environmental conservation.

Why to Choose RO + Ioniser?

- Choosing RO + Ionizer means opting for a system that ensures not only the purity of water but also enhances its health benefits. This system is particularly beneficial for those looking to improve their daily water intake with the health-enhancing properties of alkaline ionized water. Plus, our commitment to quality and customer satisfaction makes it a top choice for households everywhere.

- RO + Ionizer is more than just a water purifier; it's a health improvement machine designed to provide you with the best quality alkaline ionized water. Embrace the change with Pratyagam and turn your water into a source of health and vitality. Drink smarter, live better, and push your health forward with every glass of alkaline ionized water.

PRATYAGAM TABLE TOP MODEL

Unique Features

Fully screen touch Display

Autoclean Feature

Two types of Filters sediment and carbon

With different PH range 5.5ph to 10.5 ph

Inbuilt motor available

7 Platinum Coated plates

UNDERSINK MODEL

Pratyagam Under Sink Water Ionizer saves counter space with a sleek, hidden design, keeping your kitchen clutter-free and efficient.

HERE ARE ITS KEY BENEFITS FOR SPACE EFFICIENCY:

- ▶ Saves Counter Space
- ▶ Ideal for Small Kitchens / Small Areas
- ▶ Sleek & Minimalist Design
- ▶ Only the touchscreen panel over the counter enhances its aesthetic appeal.
- ▶ 7 Plates / 9 Plates / 11 Plates
- ▶ 1 Micron Coating
